# 1 Youthful Offender Block Grant Summary

## COUNTY PROGRAMS AND INITIAL IMPLEMENTATION

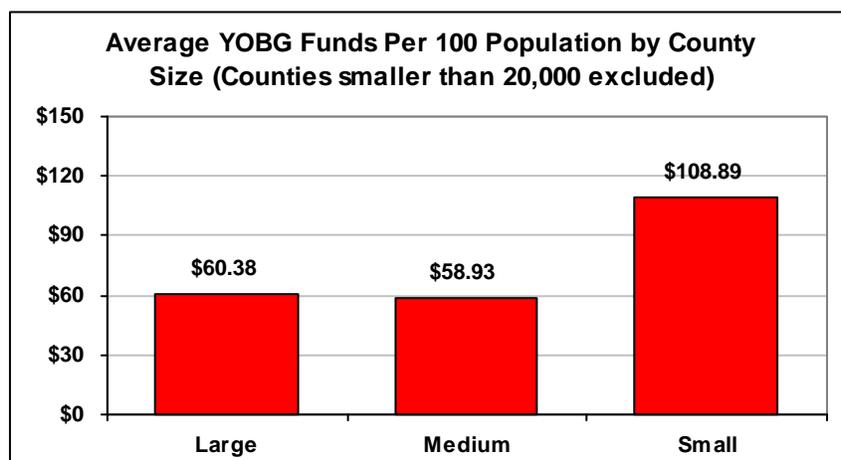

A key element of Senate Bill 81's (SB 81) juvenile justice realignment was the provision of grants to county probation departments to develop or enhance programming, staffing and facilities to manage the youthful offenders no longer eligible to be committed to, and those returned from, the Division of Juvenile Justice (DJJ). Beginning September 1, 2007, DJJ stopped accepting juvenile court commitments and parole violators convicted of other than the most violent, serious offenses delineated in Welfare and Institutions Code (WIC) Section 707(b) and/or specified sex offenses. The less serious juvenile offenders – the so-called non 707(b) offenders – became the responsibility of local jurisdictions so, as the Governor said in announcing the realignment, they could “benefit from programs within their communities and be closer to potential support networks.”<sup>1</sup> The 2007-08 state Budget included \$23 million from the General Fund for the first (partial) year Youthful Offender Block Grant (YOBG) to support counties' work with juvenile offenders. The block grant amount is to increase to a total of \$92 million by 2010-11.

Senate Bill 81 required county probation departments to report to the Corrections Standards Authority (CSA) by January 1, 2008, what they intended to pay for with their first year Youthful Offender Block Grants. Analysis of these reports indicates that, overall, counties sought to use grant funds to develop and/or enhance assessment capacity and to strengthen a wide array of programs and services. Most counties reported using the grant dollars for more than one kind of service or intervention and all counties sought to use the first year grant to fill what they perceived as their most important gaps in service for juvenile offenders.

## YOBG Fund Distribution

– YOBG funds were provided to counties based on a formula comprised of a combination of each county's population, juvenile offender population, serious offenses by juveniles and previous history of commitment to CYA/DJJ. The formula provided the state's smallest counties a

minimum of \$58,000 regardless of their juvenile offender histories.

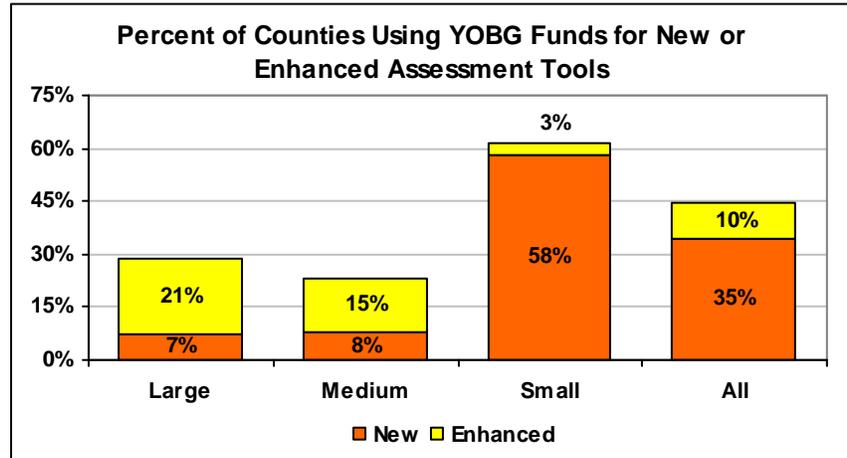

<sup>1</sup> Office of the Governor, Press Release, “Governor Schwarzenegger Releases \$23 Million for Counties to Implement Juvenile Justice Reforms,” 12/4/2007

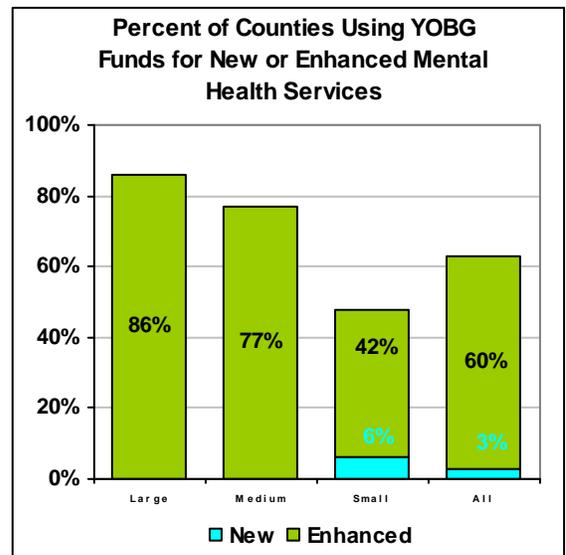

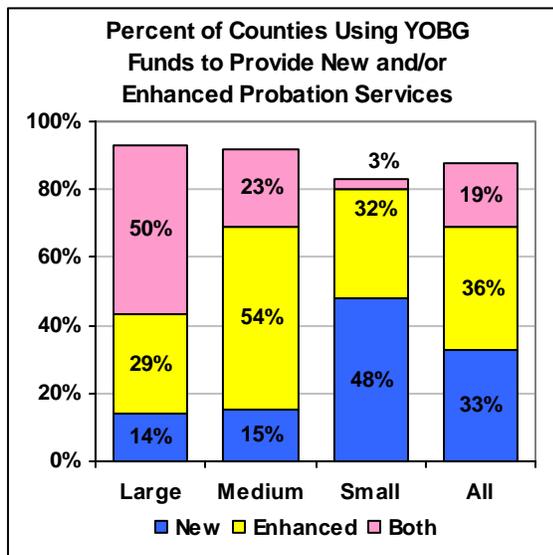

In the aggregate, the 14 large counties (populations greater than 700,000) received \$17.544 million; Los Angeles County alone was allocated more than \$5 million. The 13 medium size counties (populations between 700,000 and 200,000) received a total of \$3,057,000 while the 31 small counties (populations less than 200,000) received a total of \$2,056,000. When viewed on a per capita basis, YOBG funding was distributed relatively more evenly.

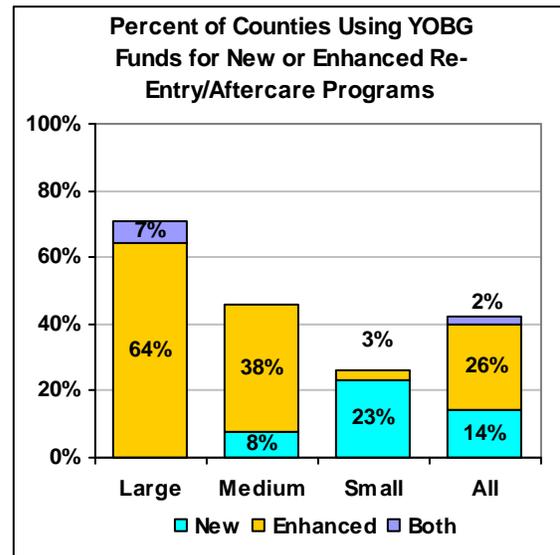

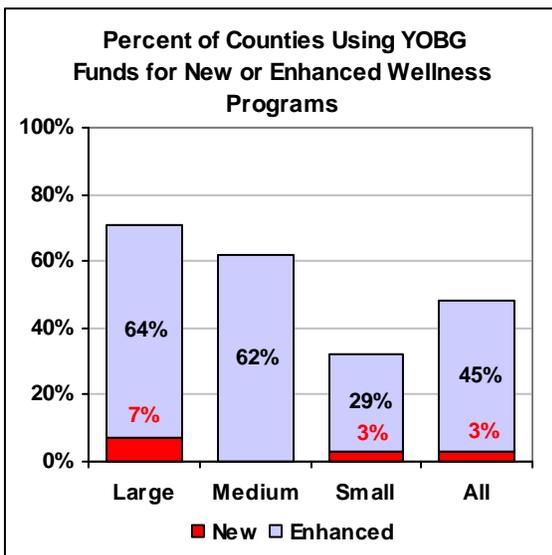

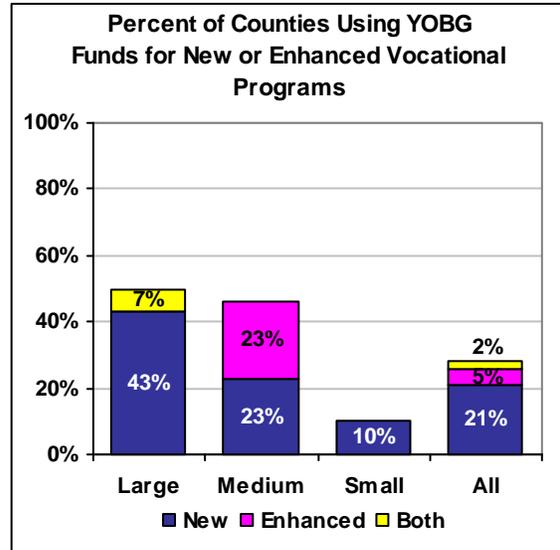

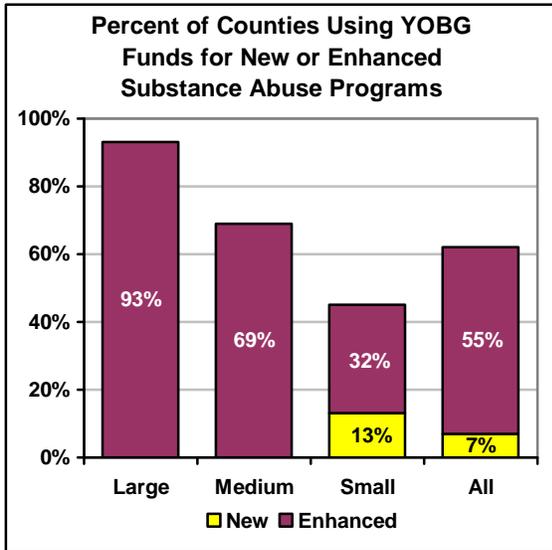

**How First Year Youthful Offender Block Grants Were Used –**

Assessment: In keeping with SB 81’s emphasis on evidence based practices, which begin with assessment of offenders’ risks to reoffend, 45 % of counties said they intended to use some or all of their first year YOBG funds to acquire assessment tools and/or to enhance assessment instruments already in place.

Programs and Services: Almost all counties (95 %) said they would be using grant funds to add and/or enhance programs and services. The following charts indicate the kinds of programs and services for which probation departments were targeting their first year YOBG allocations, including probation services, mental health services, substance abuse services, vocational programming, wellness programs and reentry / aftercare programming..

As is evident from these displays, small counties focused their funding primarily on securing assessment tools (61%); enhancing their probation programs, supervision, and case management capacity (80%); strengthening their mental health treatment programs (50%); and strengthening substance abuse treatment programs (45%).

Medium size counties similarly focused on enhancing their probation programs, supervision and case management capacity (92%); strengthening their mental health treatment programs (77%); and strengthening substance abuse treatment programs (69%). They additionally sought to augment their programming in such ‘wellness’ areas as anger management, cognitive restructuring, motivational interviewing, life skills, and/or effective decision making (62%) and their vocational and reentry programming (46% each). Two counties reported developing or enhancing comprehensive day and/or evening reporting programs.

The majority of large counties (93%) reported that they would be using first year grant funds to enhance their probation programs, supervision and case management capacity; 86% were also strengthening their mental health treatment programs; and 93% reported using grant funds to

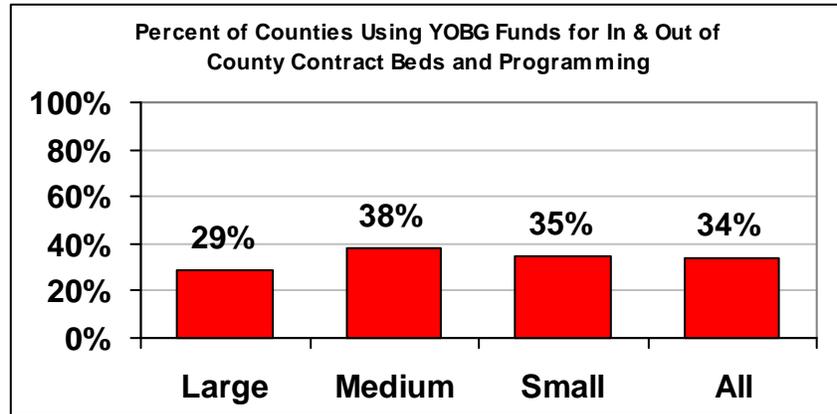

enhance substance abuse treatment programs. Large counties additionally sought to augment their programming in such ‘wellness’ areas as anger management, cognitive restructuring, motivational interviewing, health, and effective decision making (71%); vocational programming (50%); and reentry programming, including health, housing and transportation (71%).

**Staffing and Infrastructure:**

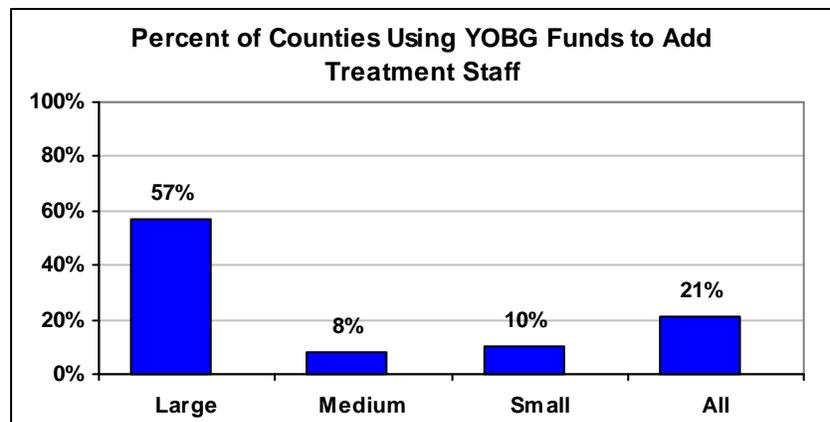

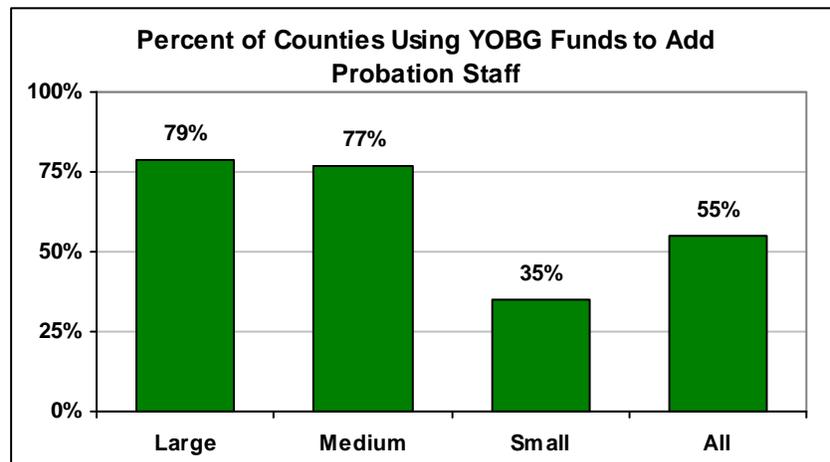

Counties additionally identified staffing and infrastructure issues related to the programming they sought to implement. Twenty jurisdictions planned to use some portion of their first year YOBG funds to contract for beds and/or program services from public agencies or nonprofit community service providers. Counties with no, or insufficient, custody or camp beds of their own planned to ensure adequate confinement capacity by contracting for beds in other counties.

Fifty-five percent of counties said they would need to add probation staff to implement the programs and services in their YOBG plans. Twenty-one percent identified the need to add health, mental health and/or substance abuse treatment staff as well.

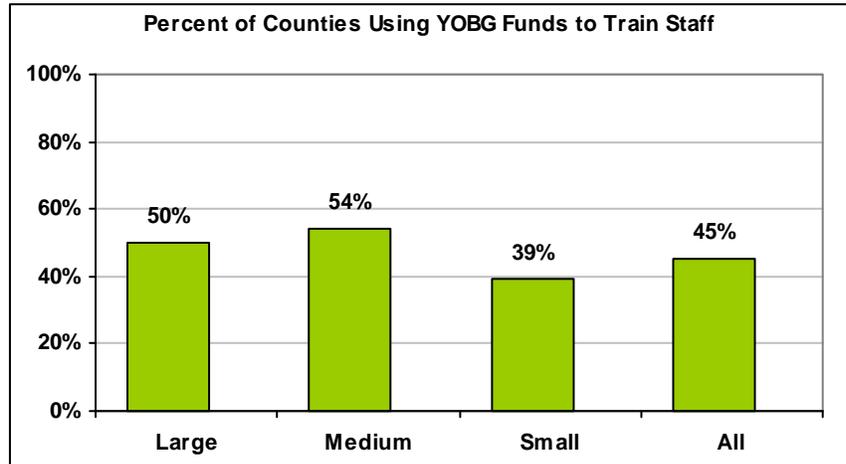

Thirty-five percent of the small counties reported that they intended to add probation staff, while 77% of the medium size counties and 79% of the large counties intended to use first year YOBG funds to add probation staff. Only 8% of medium size and 10% of small counties planned to use first year funds to add treatment staff, while 57% of large counties intended to do so.

Counties with no, or insufficient, custody or camp beds of their

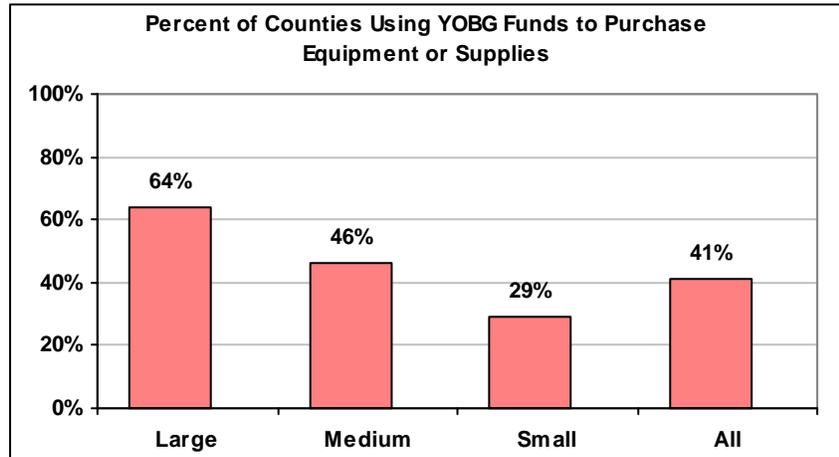

Training: In order to prepare staff to effectively deliver new or enhanced programs and/or to deal with the more serious juvenile offenders who were being realigned to local custody, 45% of counties said they would use some of their first year funding to train staff. Training was needed to address such areas as

motivational interviewing, dealing with aggressive behavior, use and interpretation of assessment tools, case management and other related topics. Thirty-nine percent of small counties, 54% of medium size counties and 50% of large counties said they would direct some of their grant dollars to train staff in their new programs and modalities.

Equipment and/or Supplies:

The last major category of expenditures anticipated for first year YOBG funds was the purchase of necessary equipment and/or supplies related to the new programs and/or new populations. Forty-one percent of probation departments said they would use grant funds to acquire such equipment and supplies as cars, radios, laptop computers,

electronic monitoring devices and materials related to assessment, among other things. Twenty-nine percent of small counties, 46% of medium size counties and 64% of large counties reported allocating some of their grant dollars to the purchase of equipment and supplies.

## IMPLEMENTATION PROGRESS REPORTS, APRIL 2008

In mid-March, the Corrections Standards Authority, at the request of one of its members, surveyed probation departments as to the progress they were making with their YOBG program implementation. Departments were asked to report their accomplishments through April 30, with regard to getting programs and services up and going and any major barriers to implementation they were experiencing.

They were also asked to report:

- the number of minors served to date
- what percent of their first year YOBG allocation had been spent to date
- whether they were collecting data to measure outcomes and, if not, whether they were planning to do so after full implementation, and
- whether they were implementing an assessment tool as part of realignment

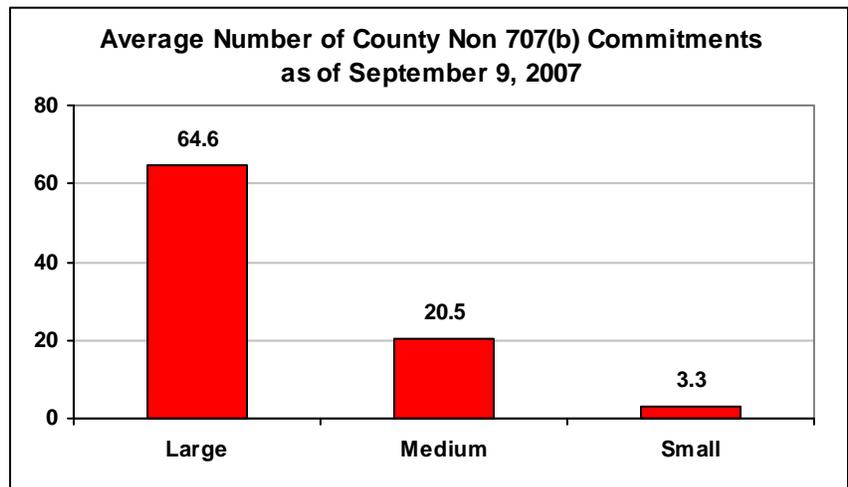

Finally, departments were asked to name the assessment instrument(s) being introduced as part of realignment, as well as those they were continuing to use, i.e., those that were in place prior to realignment.

Analysis of the responses to this update survey, again sorted and displayed by county size, are summarized in the following graphics. The progress report data shows that, as early as four (4) months into realignment, county probation departments were making significant progress in planning and implementing major elements of realignment consistent with the intent of SB 81. While many departments believed they could not begin spending YOBG funds until their Juvenile Justice Development Plans were approved by the Corrections Standards Authority at its March 20, 2008, Board meeting, nonetheless planning, operational design/decision making and implementation steps were well under way at the time of the Implementation Progress Reports.

### Youth Served and Dollars Expended –

#### Eligible Offenders in DJJ:

SB 81 became effective September 1, 2007. At that time, according to DJJ, there were 1,272 non 707(b) youth in DJJ; 696 of those youth were in DJJ facilities and 576 were on DJJ parole. As could be expected, the greatest number of non 707 (b) offenders came from the larger counties, with the 14 largest counties averaging nearly 65 non 707(b) youth

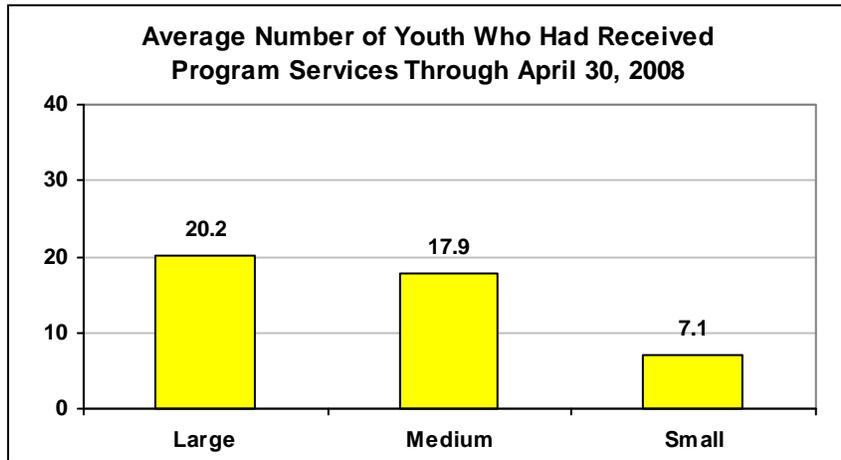

each. The 13 medium size counties had an average of 20.5 such offenders each, while the 31 small counties were responsible for an average of approximately 3 non 707(b) offenders each in DJJ.

Once SB 81 became operational, counties began to receive youth formerly committed to DJJ for non 707(b) offenses and DJJ parolees in varying numbers and at different times. Juvenile courts also began to commit to probation departments the newly adjudicated non 707(b) offenders who were no longer eligible to be sent to DJJ.

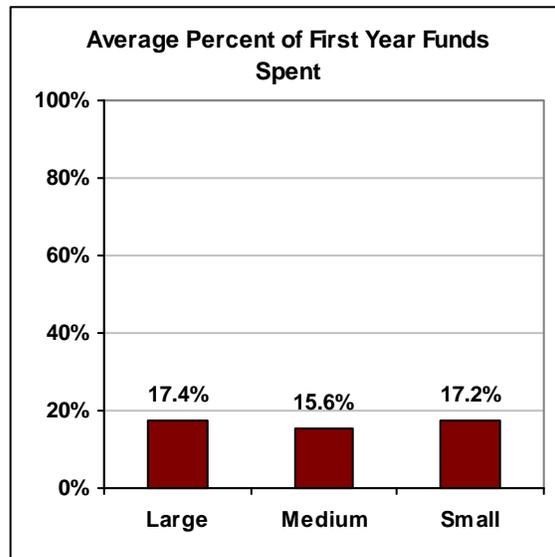

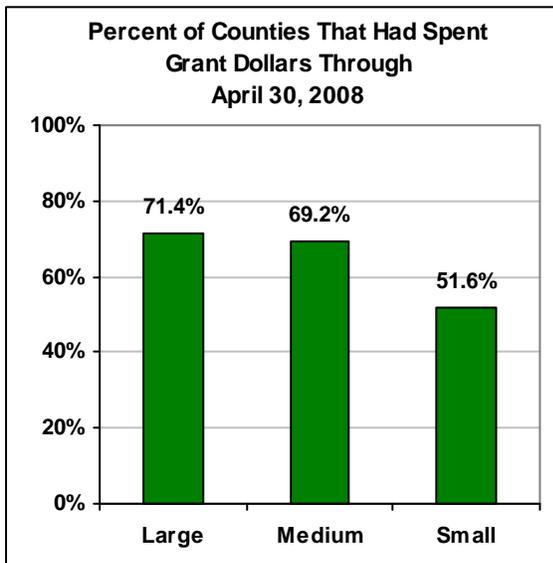

Implementation of YOBG Services:

Given the fact that there was a very short start up time for realignment and very little ability to predict the numbers of youth who

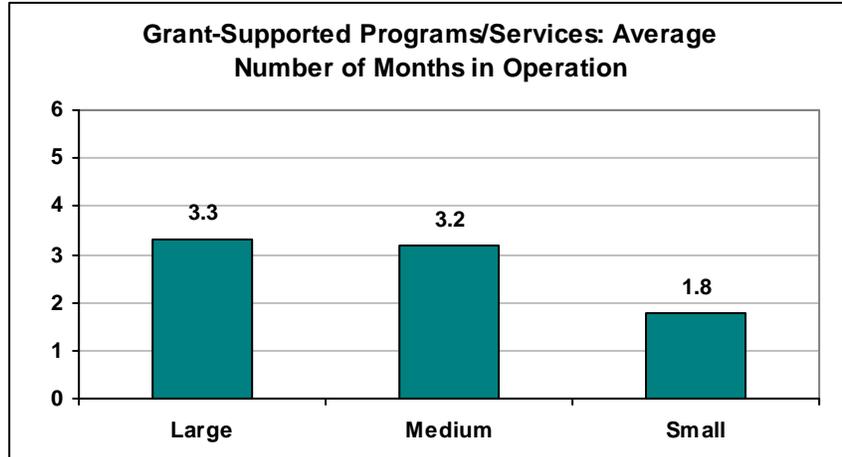

would be immediately requiring county services, it is remarkable that, as early as April of 2008, probation departments were able to begin providing services with block grant funds to this and related populations of offenders. Through April 2008, 735 youth had received services through YOBG funded programs.

YOBG Funds Expended: Again noting that many counties believed they could not expend YOBG dollars until CSA had approved their plans, nonetheless, within the first quarter of the first funding year, 35 probation departments – in 71.4% of the large counties, 69.2% of the medium size counties and 51.6% of the small counties – had begun to use their YOBG monies. Across county sizes, there was general consistency in the proportion of first year funding expended, with most departments that used YOBG dollars expending somewhat less than a quarter of the first year’s allocation in the first quarter of start up.

In the large and medium size counties, programs and/or services had been in active planning, start up or operation for nearly three months at the time of the update survey. Small counties, with a variety of startup challenges, reported having had their programs in active planning, start up or operation for 1.8 months.

**Kinds / Categories of Programs Implemented** -- CSA asked each department to identify its progress implementing each and all of the programs or services for which the county had reported the intention to use YOYG dollars.<sup>2</sup> As noted previously, there was a great deal of variety in program choices among counties; some elected multiple options while others chose only one or two. On average, the larger counties – which had more offenders as well as more dollars to spend – opted to undertake more types of program and/or service expansion than did the small counties.

Overall, YOYG funded efforts fell into thirteen general categories. These are displayed in the table below:

Categories Of Programs / Services Chosen By Counties For YOYG Funding	
Assessment Tool(s)	Miscellaneous Program Types
Probation Supervision/Programs/Case Mgmt.	Contract for Beds and/or Services
Mental Health Programs	Add Probation Staff
Substance Abuse Programs	Add Treatment Staff
Vocational Programs	Staff Training
Wellness Programs	Purchase Equipment/Supplies
Re-Entry and Aftercare Programs	

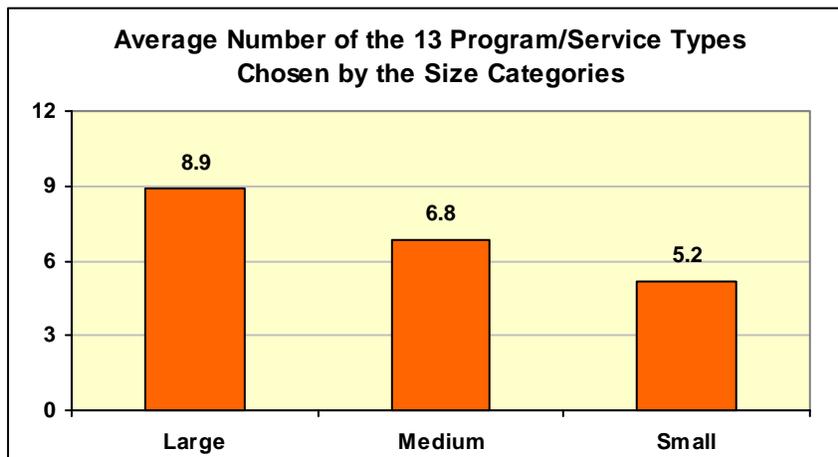

Although many of the programs described as “Vocational,” “Wellness” and “Reentry” are “Probation” programs as well, the analysis of county reports made an effort to separate out those specialized programs. The category of Wellness Programs included such efforts as anger management, cognitive restructuring, motivational interviewing, life skills development, health and/or effective decision making, among others. Miscellaneous Programs included such

<sup>2</sup> Please refer to summary each county’s YOYG First Year Funding plan in Appendix ???

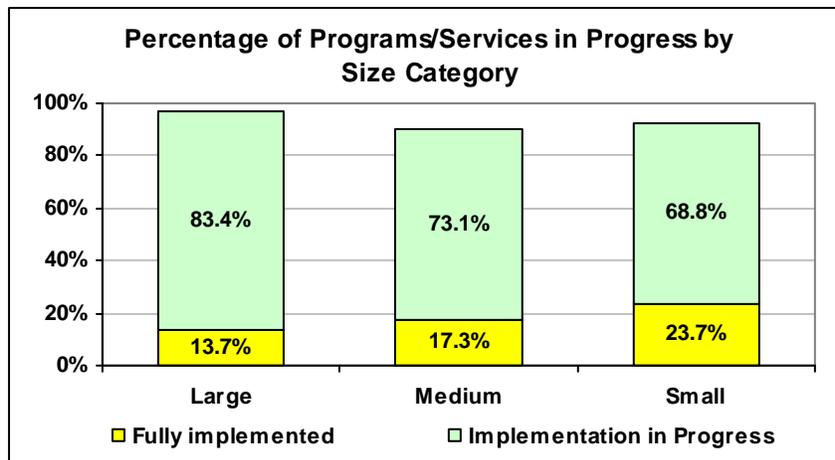

interventions as Girls' Circle, other gender specific programs, interactive journaling, recreational programming and the like.

The following tables and charts indicate the frequency of use of each of these categories of programs and/or services and the percentage of each of the kinds of programs and/or services in progress in the small, medium size and large counties at the time of the April update.

<b>Number Of Counties Choosing Each Type Of Program or Service</b>			
<b>Programs/Services</b>	<b>14 Large Counties</b>	<b>13 Medium Counties</b>	<b>31 Small Counties</b>
Assessment Tool(s)	5	4	21

Wellness Counseling	11	8	11
Re-Entry and Aftercare	11	6	8
Miscellaneous Programs	7	3	11
Contract for Beds	4	5	11
Add Staff --Probation	12	10	12
Add Staff --Treatment	8	1	3
Train Staff	8	7	14
Equipment Supplies	8	5	11
<b>Total</b>	<b>124</b>	<b>88</b>	<b>162</b>

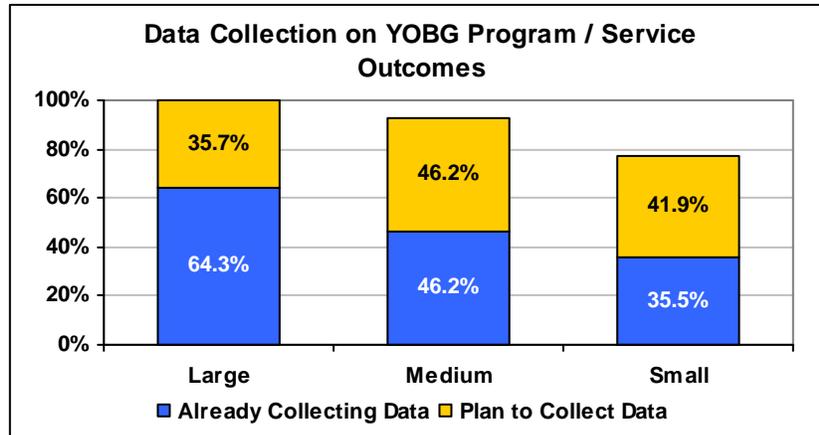

Percentage Of Programs In Progress			
Programs/Services	14 Large Counties	13 Medium Counties	31 Small Counties
Assessment Tool(s)	100.0%	100.0%	90.0%
Probation Programs	100.0%	91.7%	96.2%
Mental Health Programs	100.0%	90.0%	100.0%
Substance Abuse Programs	100.0%	90.0%	92.9%
Vocational Programs	100.0%	85.7%	100.0%
Wellness Counseling	100.0%	87.5%	100.0%
Re-Entry and Aftercare	100.0%	100.0%	100.0%
Miscellaneous Programs	100.0%	100.0%	90.9%
Contract for Beds	100.0%	80.0%	90.9%
Add Staff --Probation	100.0%	70.0%	91.7%
Add Staff --Treatment	100.0%	100.0%	66.7%
Train Staff	100.0%	100.0%	92.9%
Equipment Supplies	62.5%	80.0%	90.9%
Total	97.1%	90.4%	92.5%

**Data Collection** – In addition to reporting on their implementation progress and the use of YOBG dollars, counties were also asked whether they were collecting data on participation in and outcomes of their YOBG funded programs. Those who said they were not currently collecting this information were asked if they intended to do so when their programs were fully

operational. All of the large counties, 92.4% of the medium size counties and 77% of the small counties said they either were collecting or were planning to collect this data.

**Assessment Tools** – The final questions in the update survey were specific to assessment instruments. Counties were asked to identify assessment tools they may have been using prior to realignment and those they were implementing as part of realignment. The survey asked, “Have you implemented an assessment tool as part of realignment? If yes, which one? If not, are you using something that was already in place?”

Five of the large county departments (35.7%) and four of the medium size counties’ departments (30.8%) responded that they were implementing one or more assessment instruments as part of realignment. More than half of the small counties’ departments (21 or 67.7%) said they intended to do so. Thus 30 of California’s 58 juvenile probation departments are using or intend to use YOBG funding to purchase and/or implement one or more assessment instruments.

Another 32 counties (12 large, 10 medium size, and 10 small) reported that they were continuing to use assessment tools already in place.

The specific assessment tools named by probation departments as among either those that were being implemented as part of realignment or those that were already in place include, but are not limited to, the Addiction Severity Index (ASI); the Detention Risk Assessment Instrument (DRAI), the Juvenile Assessment and Intervention System (JAIS), the Level of Services Inventory-Revised (LSI-R), the Massachusetts Youth Screening Instrument (MAYSI and MAYSI-2) for mental health screening, the Positive Achievement Change Tool (PACT ), the Risk and Resiliency tool (R&R), the Static 99 (related to sex offenders), and the Youth Level of Services Case Management Inventory (YLS/CMI). Some jurisdictions are using multiple instruments and some of these tools are being used in multiple jurisdictions.

Unknown/None/Undecided	12
YLS/CMI	8
<b>TOTAL</b>	<b>72</b>

**Conclusion** – The foregoing analysis of probation departments’ Juvenile Justice Development Plans and their Implementation Progress Reports provide strong evidence that YOBG monies are being used, even in the least affluent counties, to introduce or expand the evidence based practices envisioned in SB 81.

While it is too early to say that realignment has been fully accomplished, or that it is more or less successful, it is not too soon to see that counties have stepped up to the challenge of absorbing more serious juvenile offenders and that probation departments are moving toward objective assessment, case planning / case management, the use of evidence based practices and the collection and reporting of outcome data, as hoped for by the drafters of SB 81.

## Section I: Table of Contents

### Definitions of Risk and Needs Assessments

#### Table

- 1 Assessments of the Risk of Re-Offending
- 2 Assessments of the Risk of Re-Offending by County Size
- 3 Assessments of Treatment-Related Needs
- 4 Juvenile Assessments for Detention / Release Decision, Classification
- 5 Timing of Assessments
- 6 Purposes of Assessments
- 7 Feasibility of Adding Categorical Levels of Risk of Re-Offending to the JCPSS (Juvenile Court Probation Statistical System) by County Size
- 8 Categories Defined by Risk of Re-Offending Assessments

## Definitions of Risk and Needs Assessments

Four purposes for assessments were defined for this survey: two for intervention / treatment purposes and two for detention-related purposes.

### ASSESSMENT FOR INTERVENTION / TREATMENT PURPOSES

1<sup>st</sup> purpose is to assess **RISK OF RE-OFFENDING**

Judgments about risk of re-offending form the basis of important decisions regarding the selection of the appropriate level of juvenile justice intervention or sanction. Research shows that matching the juvenile's risk of re-offending to the intensity of the intervention or sanction provided (higher risk = more intense response; lower risk = very low intensity response) is critical to achieving favorable outcomes. A validated "actuarial-type" risk assessment tool identifies youth with a low, medium or high risk of re-offending based on empirically-weighted risk factors.

2<sup>nd</sup> purpose is to assess **TREATMENT-RELATED NEEDS**

Treatment-related assessments can be broken down into two parts:

1. Traditional assessments used to identify physical health, mental health, education and other specific treatment needs, and
2. Assessments of criminogenic risk / need factors based on the research literature.

Assessment tools designed to identify criminogenic risk / needs will, among other things, measure a youth's history of antisocial behavior; antisocial personality patterns; antisocial attitudes, values and beliefs; and association with antisocial peers.

It is this second type of treatment-related assessment that is the subject of this part of the survey.

### ASSESSMENT FOR DETENTION-RELATED PURPOSES

3<sup>rd</sup> purpose is to assess risks related to the **DECISION TO DETAIN OR RELEASE**

The decision whether to hold a juvenile in a detention facility or release to a parent or guardian should be based on legal requirements as well as judgments about risk to self and others.

4<sup>th</sup> purpose is to assess **CUSTODY CLASSIFICATION**

This assessment provides the basis for making housing decisions based on the level of threat that youth in secure facilities pose to themselves, to others in custody or to the facility staff.

Section I: Table 1

**Assessments of the Risk of Re-Offending<sup>1</sup> in Use Statewide by CA County Probation Departments<sup>2</sup>**

Assessment of Risk of Re-Offending (as reported August 2008)	Frequency	Percent
PACT <sup>3</sup> Positive Achievement Change Tool	22	42%
BOT Back on Track	6	11%
YLS/CMI Youth Level of Service/Case Management Inventory	6	11%
RRC Risk and Resiliency Check-up	3	6%
JAIS-NCCD Juvenile Assessment & Intervention System / National Council on Crime and Delinquency	3	6%
NIC Juvenile Risk and Need Assessment Orange County /National Institute of Corrections	2	4%
COMPAS Correctional Offender Management Profile for Alternative Sanctions	2	4%
Locally-developed risk assessment (Madera, Santa Clara, Santa Barbara, Tehama)	4	8%
None in use (Alpine, El Dorado, Fresno, Kings, Mono)	5	9%
Total	53	100%

<sup>1</sup> Validated risk assessments of this type are a critical component of evidence-based practices in juvenile justice.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of the 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra. According to the JJDP 2006 survey, Amador County was using RRC; Del Norte was using an assessment developed locally; Modoc, Plumas and Sierra were not using a risk assessment (for re-offending) at that time.

<sup>3</sup> Many of the counties reporting use of this tool were to begin training during Fall 2008 and active implementation beginning in December 2008.

Section I: Table 2

Assessments of the Risk of Re-Offending in Use<sup>1</sup> by County Size<sup>2</sup> in CA County Probation Departments

Risk of Future Offending	Very Small		Small		Medium		Large		All	
	Freq	%	Freq	%	Freq	%	Freq	%	Freq	%
PACT Positive Achievement Change Tool	6	75%	5	50%	8	38%	3	21%	22	42%

Total <sup>3</sup>	8	100%	10	100%	21	100%	14	100%	53	100%

<sup>1</sup> Validated risk assessments of this type are a key component of evidence-based practices in Juvenile Justice.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Very small counties had less than 35,000 population; small counties had between 35,000 and 100,000 population; medium counties had between 100,000 and 700,000 population; and large counties had over 700,000 population in 2004. The eight very small counties responding to the survey are Alpine, Colusa, Glenn, Inyo, Lassen, Mariposa, Trinity. The ten small counties responding are: Calaveras, Lake, Mendocino, Nevada, San Benito, Siskiyou, Sutter, Tehama, Tuolumne and Yuba. The twenty-one medium counties include: Butte, El Dorado, Humboldt, Imperials, Kings, Madera, Marin, Merced, Monterey, Placer, San Joaquin, San Luis Obispo, Santa Barbara, Santa Cruz, Shasta, Solano, Sonoma, Stanislaus, Tulare and Yolo; leaving fourteen large counties: Alameda, Contra Costa, Fresno, Kern, Los Angeles, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Mateo, Santa Clara and Ventura.

<sup>3</sup> Counties that did not participate in this survey are Amador, Del Norte, Modoc, Plumas and Sierra. According to the JJDP 2006 survey, Amador County was using RRC; Del Norte was using an assessment developed locally; and Modoc, Plumas, and Sierra were not at that time using a risk assessment (for re-offending).

Section I: Table 3

Assessments of Treatment-Related Needs<sup>1</sup> in Use Statewide by CA County Probation Departments<sup>2</sup>

Assessment of Criminogenic Needs (as reported August 2008)	Frequency	Percent
PACT <sup>3</sup> Positive Achievement Change Tool	22	42%
BOT Back on Track	5	9%
YLS/CMI Youth Level of Service/Case Management Inventory	5	9%
RRC Risk and Resiliency Check-up	3	6%
JAIS-NCCD Juvenile Assessment & Intervention System / National Council on Crime and Delinquency	2	4%
COMPAS Correctional Offender Management Profile for Alternative Sanctions	2	4%
MAYSI (alone and with other assessments) Massachusetts Youth Screening Instrument	5	9%
Locally developed (Kings, Madera, Placer, Santa Clara, Tehama)	5	10%
None (Alpine, El Dorado, Fresno, Mono)	4	8%
Total	53	100%

<sup>1</sup> Validated assessments of treatment-related criminogenic needs are a critical component of evidence-based practices in juvenile justice.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra. According to the JJDP 2006 survey, Amador County was using RRC, Del Norte was using a locally-developed assessment tool with 15 domains, Modoc was using a locally-developed assessment tool, Plumas did not assess need, and Sierra used an assessment tool for their mentally ill offender program.

<sup>3</sup> Many of the counties reporting use of this tool were to begin training during Fall 2008 and active implementation beginning in December 2008.

Section I: Table 4

**Juvenile Assessments for Detention / Release Decision<sup>1</sup> in Use by CA County Probation Departments<sup>2</sup>**

Detention/ Release Decision Assessments (as reported August 2008)	Frequency	Percent
Validated assessment in use	11	21%
Assessment in use that has not been validated or validation status is unknown	22	42%
No formal assessment used <sup>3</sup> (reliance on protocol, statutory guidelines, informal process)	20	38%
Total	53	100%

<sup>1</sup> Using a valid assessment at intake to inform the decision to detain, release, or use an alternative to detention is a best practice.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra. Use of detain / release decision assessments was not addressed by the JJDP 2006 survey.

**Juvenile Detention Classification Assessments<sup>1</sup> in Use by CA County Probation Departments<sup>2</sup>**

Detention Classification Decisions (as reported August 2008)	Frequency	Percent
Formal assessment tool used for classification	11	21%
Reliance on protocol for classification	4	8%
No formal method of classification used	38	72%
Total	53	100.0%

<sup>1</sup> Valid assessments that inform decisions on housing are important in secure facilities to keep order and protect more vulnerable youth. While many of the counties do not report using formal assessment tools, most county facilities do identify separate pods for boys and girls, younger and older, and aggressive and vulnerable youth.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra. Use of classification assessments was not addressed by the JJDP 2006 survey.

No assessment taken	5	9%		5	9%			
Totals	53	100%		53	100%			

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra.

<sup>2</sup> For risk of re-offending, the optimal time to administer the assessment is at or before adjudication; 68% of responding counties do so. For treatment-related needs, the optimal time to administer the assessment is at or before program intake; 68% of responding counties do so. For detention decisions, the optimal time to assess is upon intake at the detention facility; 58% of responding counties assess do so.

<sup>3</sup>Forty-seven percent (47%) of responding counties re-assess risk of re-offending and treatment-related needs at specified intervals and at termination, consistent with best practices.

Section I: Table 6

**Purposes of Assessments in Use by CA County Probation Departments<sup>1</sup>**

For what purposes are assessments used? (as reported August 2008)	Risk of Re-Offending		Treatment-Related Needs	
	Frequency	Percent <sup>2</sup>	Frequency	Percent <sup>2</sup>
Categories are <u>not</u> mutually exclusive				
Decision to file	14	29%	--	--
Diversion decision	13	27%	--	--
Determine level of supervision	33	69%	--	--
Determine referral to DA for petition	11	23%	--	--
Placement in specific program	21	44%	22	45%
For case management	32	67%	32	65%
Dispositional recommendation	23	48%	--	--
Determine treatment options	20	42%	33	67%
Determine treatment options within a program	--	--	22	45%
Total number of counties that use assessment	48		49	

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra. Five of the remaining 53 counties reported that they did not use assessments for risk of re-offending: Alpine, El Dorado, Fresno, Kings and Mono; 4 of the 53 counties did not use assessments for treatment-related needs: Alpine, El Dorado, Fresno and Mono.

<sup>2</sup> Percents based on responses from the 48 counties that use an assessment for risk of re-offending and the 49 counties that reported using treatment-related needs assessments.

Section I: Table 7

**Feasibility of Adding Categorical Levels of Risk of Re-Offending to the JCPSS (Juvenile Court Probation Statistical System) by County Size by CA County Probation Departments<sup>1</sup>**

Counties	If JCPSS could accept the data, could you add level of risk of re-offending to the data already submitted?							
	Yes		Yes, with difficulty		No		No assessment	
	Freq	%	Freq	%	Freq	%	Freq	%
All	24	45%	13	25%	11	21%	5	9%

Very Small (under 35,000 population) <sup>2</sup>	2	25%	0	0%	4	50%	2	25%
Small (35,000-100,000 population) <sup>2</sup>	6	60%	3	30%	1	10%	0	0%
Medium (100,000-700,000 population) <sup>2</sup>	11	52%	6	29%	2	10%	2	10%
Large (over 700,000 population) <sup>2</sup>	7	50%	3	21%	3	21%	1	7%

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Five of 58 counties did not participate in this survey: Amador, Del Norte, Modoc, Plumas and Sierra.

<sup>2</sup> The eight very small counties responding to the survey are Alpine, Colusa, Glenn, Inyo, Lassen, Mariposa, Trinity. The ten small counties responding are: Calaveras, Lake, Mendocino, Nevada, San Benito, Siskiyou, Sutter, Tehama, Tuolumne and Yuba. The twenty-one medium counties include: Butte, El Dorado, Humboldt, Imperials, Kings, Madera, Marin, Merced, Monterey, Placer, San Joaquin, San Luis Obispo, Santa Barbara, Santa Cruz, Shasta, Solano, Sonoma, Stanislaus, Tulare and Yolo; leaving fourteen large counties: Alameda, Contra Costa, Fresno, Kern, Los Angeles, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Mateo, Santa Clara and Ventura.

Section I: Table 8

**Categories Defined by Risk of Re-Offending Assessments in Use by CA County Probation Departments<sup>1</sup>**

Assessment (as reported August 2008)	Four levels	Three levels	Two levels
PACT <sup>2</sup> Positive Achievement Change Tool	Low, Mod, Mod-High, High		
BOT Back on Track		Low, Mod, High	
YLS/CMI Youth Level of Service/Case Management Inventory	Low, Mod, High, Very High		
RRC Risk and Resiliency Check-up	Low, Mod, High, Intensive		
JAIS-NCCD Juvenile Assessment & Intervention System / National Council on Crime and Delinquency		Low, Mod, High	
NIC Juvenile Risk and Need Assessment Orange County /National Institute of Corrections			Highest, Rest
COMPAS Correctional Offender Management Profile for Alternative Sanctions		Low, Mod, High	
Locally-developed risk assessment (Madera, Santa Clara, Santa Barbara, Tehama)		Low, Mod, High	
None in use (Alpine, El Dorado, Fresno, Kings, Mono)			

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Counties that did not participate in this survey are Amador, Del Norte, Modoc, Plumas and Sierra. According to the JJDP 2006 survey, Amador County was using RRC that is scored Low, Medium, High, Intensive. Del Norte was using an assessment developed locally that is scored Low, Medium, High. Modoc, Plumas and Sierra were not using a risk assessment (for re-offending) at that time.

<sup>2</sup> Many of the counties reporting use of this tool were to begin training during Fall 2008 and active implementation beginning in December 2008.

- 64 Number of Criminogenic Needs Targeted by Program Type
- 65 Number of Criminogenic Needs Targeted by County Size
- 66 Program Elements Available "As Needed" by County Size
- 67 Special Populations Served Statewide by CA County Probation Department Programs & Facilities

Level G: State Department of Juvenile Justice (DJJ) Secure Facilities

- 68 Number of Youth in Custody in DJJ Facilities
- 69 Service Elements Provided Youth in Custody at DJJ Facilities
- 70 Evidence-Based Programs & Principles in Use at DJJ Facilities

Level H: State Department of Juvenile Justice (DJJ) Parole

- 71 Parole Services in Use & Needed in DJJ

## **Definition of the Continuum of Graduated Sanctions in California Juvenile Justice**

A continuum of intervention programs from diversion to confinement is provided by each of 58 county probation departments, with the highest level of confinement provided by the state Division of Juvenile Justice (DJJ). Each level on this continuum varies by the intensity (duration and contact hours) and the kinds of services provided.

### Level A: Early Intervention (Non Court-Ordered)<sup>1</sup>

Includes youth referred to probation under WIC 654.1 or otherwise are serviced by probation without formal court adjudication. In a snapshot of the California juvenile justice system in August 2006, 13.1% of all youth were involved in interventions at this level.<sup>2</sup>

### Level B: Regular Supervision

Includes youth ordered on juvenile probation under WIC 241.1, 601, 602, 654.2, 725a or 790 who are placed in programs of regular intensity. In a snapshot of the California juvenile justice system in August 2006, 52.8% of all youth were involved in interventions at this level.<sup>2</sup>

### Level C: Intensive Supervision

Includes youth ordered on juvenile probation under that same authority as above who are placed in programs of higher intensity. In a snapshot of the California juvenile justice system in August 2006, 9.1% of all youth were involved in interventions at this level.<sup>2</sup>

Note: Characteristics of court-ordered placement out of the home were not surveyed here because these programs are neither county nor state run. In a snapshot of the juvenile justice system in August 2006, 3.7% of all youth were placed in private group or foster homes.<sup>2</sup>

### Level D: County Juvenile Hall Facilities

Youthful offenders may be held in juvenile hall pending adjudication; after adjudication as a short term punishment; after adjudication pending placement in a group home, probation ranch/camp or residential treatment center; or pending court action in adult court or transfer to DJJ. In a snapshot of the California juvenile justice system in August 2006, 5.9% of all youth were in a juvenile detention facility.<sup>2</sup>

### Level E: County-Level Facilities (most are secure)

Youthful offenders, typically those who have continued to offend or have not cooperated with community supervision, may be ordered to a probation ranch / camp or a residential treatment facility. In a snapshot of the California juvenile justice system in August 2006, 3.7% of all youth were involved in ranch / camp interventions.<sup>2</sup>

### Level F: County Aftercare / Re-entry

At the county level, youth returning to the community after placement out of the home in private or county facilities may be involved in aftercare / re-entry programs. In a snapshot of the California juvenile justice system in August 2006, 6.7% of all youth were involved in aftercare / re-entry.<sup>2</sup>

### Level G: State DJJ Secure Facilities

Includes secure facilities operated by the state Division of Juvenile Justice. In a snapshot of the California juvenile justice system in August 2006, 2.2% of all youth were in a DJJ facility.<sup>2</sup> Due

to realignment, the number of youth held at this level at the end of 2008 is more than 40% lower than 2006.

Level H: State DJJ Parole

At the state level, 2.5% of all youth in the system were involved in DJJ supervised parole in Aug 2006.<sup>2</sup>

<sup>1</sup> In Level A: Early Intervention, some of the diversion and prevention programs that probation officers participate in were not included when probation was not the lead agency for the effort.

<sup>2</sup> For more information see: [http://www.cdcr.ca.gov/Reports\\_Research/docs/JJDPsurveyFinalReport.pdf](http://www.cdcr.ca.gov/Reports_Research/docs/JJDPsurveyFinalReport.pdf) (April 2007).

## Program Elements Definitions

(for Section II: Tables 37, 43, 51 and 66)

Program Elements	Survey Categories
Evidence-Based Therapies	Depending on the setting, therapies reported included cognitive behavioral therapy, aggression replacement therapy, multisystemic therapy, functional family therapy and dialectical behavior therapy
Mental Health Services	Mental illness
Counseling	Individual counseling, group counseling
Skills Development	Creative expression, interpersonal skills, character development, life skills training
Education Enhancement	Tutoring / literacy / GED
Family Involvement / Parenting Skills	Family strengthening: family involvement in program, reduction in family conflict / dysfunction, improving parenting skills (for parents of youth), improving parenting skills (youth who are parents), family counseling
Behavioral Health / Drug-Related Problems	Substance abuse treatment / relapse prevention, healthcare referrals, behavioral health (HIV, sexual), drug awareness education, drug testing, drug court, peer support programs (AA, NA)
Vocational Training and Employability Skills	Vocational training, employability skills, work / labor
Housing / Independent Living	Housing referrals, independent living skills
Victim-Focused Programs	Restitution, restorative justice, victim / offender mediation
Systems of Care	Including wraparound services
Recreation / Challenge	Recreation or physical activity, challenge / adventure ("Outward Bound" concepts)
Boot Camp Approach	Discipline ("boot camp" approach)

Section II: Table 1

**Prevalence of Community-Based Programs and Facility-Based Programs across the California Juvenile Justice Continuum<sup>1</sup>**

Components of the Juvenile Justice Continuum in California	Reported Number of Programs and Facilities	Estimated Additional Programs and Facilities <sup>2</sup>	Total Reported and Estimated Programs and Facilities in the Juvenile Justice System Statewide
Early Intervention (non court-ordered)	116	8	124
Regular Supervision	173	14	187
Intensive Supervision	140	7	147
Juvenile Hall Facilities	56	2	58
Camp / Ranch Facilities	68	1	69
County Aftercare / Re-Entry	65	1	66
DJJ Facilities	6	0	6
DJJ Parole Offices	12	0	12
Total	636	33	669

<sup>1</sup> Based on the number of programs and facilities reported by 53 of 58 county probation departments in the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> Estimated additional programs and facilities for the 5 counties that could not participate in this survey (Amador, Del Norte, Modoc, Plumas and Sierra) were either reported in the JJDP 2006 survey or were included in the CSA listing of 2 June 2008. These additional programs and facilities are not included in the remainder of the appendix.

Section II: Table 2

**Types of Early Intervention Programs (Non Court-Ordered)<sup>1</sup> in Use by County Size in CA County Probation Departments<sup>2</sup>**

Program Type	Programs in All Counties		In Very Small Counties		In Small Counties		In Medium Counties		In Large Counties	
	Count of Programs	%	Count	%	Count	%	Count	%	Count	%
Diversion, not supervised	23	20%	1	9%	3	14%	15	28%	4	13%
Not supervised, some brokered services	11	9%	1	9%	0	0%	6	11%	4	13%
Peer Court, Restorative, Accountability Boards	29	25%	1	9%	4	19%	14	26%	10	32%
Supervised, informal (typically with services)	44	38%	8	73%	10	48%	13	25%	13	42%
Truancy focus	7	6%	0	0%	4	19%	3	6%	0	0%
High risk early intervention	2	2%	0	0%	0	0%	2	4%	0	0%
Total	116	100%	11	100%	21	100%	53	100%	31	100%

<sup>1</sup> Early Intervention program type categories were coded using program names and brief descriptions of programs given in the 2006 JJDP survey.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

Section II: Table 3

**Duration in Days by Type of Program: Early Intervention Programs (Non Court-Ordered) Statewide in California County Probation Departments<sup>1</sup>**

Program Type	up to 7 days		8 - 90 days		91 - 180 days		181 - 365 days		366 - 730 days		Total <sup>2</sup>	
	Count	%	Count	%	Count	%	Count	%	Count	%	Count	%
Diversion (not supervised)	6	27%	8	36%	8	36%	0	0%	0	0%	22	100%
Not supervised, some brokered services	0	0%	3	30%	6	60%	1	10%	0	0%	10	100%
Peer Court, Restorative Justice, Accountability Boards	1	3%	9	31%	18	62%	1	3%	0	0%	29	100%
Supervised - Informal (typically with services)	0	0%	2	5%	35	81%	5	12%	1	2%	43	100%
Truancy Focus	0	0%	1	17%	5	83%	0	0%	0	0%	6	100%
High Risk Intervention	0	0%	2	100%	0	0%	0	0%	0	0%	2	100%

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> The duration of 4 of the 116 programs (3%) was not reported: 1 of the 23 diversion (not supervised) programs, 1 of the 11 not-supervised (some brokered services) programs, 1 of the 44 supervised-informal (typically with services) programs and 1 of the 7 truancy-focused programs.

Section II: Table 4

**Duration in Days by County Size: Early Intervention Programs (Non Court-Ordered) in CA County Probation Departments<sup>1</sup>**

Counties	up to 7 days		8 - 90 days		91 - 180 days		181 - 365 days		366 - 730 days		Total <sup>2</sup>

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> One hundred and forty intensive supervision programs were reported by 49 counties: 9 in very small counties, 14 in small counties, 72 in medium counties and 45 in large counties

<sup>3</sup> Evidence-based therapies reported in this setting include cognitive behavioral therapy, aggression replacement therapy, multisystemic therapy, functional family therapy and dialectical behavior therapy.

Section II: Table 38

**Juvenile Hall Facilities by County Size in CA County Probation Departments<sup>1</sup>**

Counties	Counties with one facility		Counties with more than one facility		Counties without a facility		Total Counties	
	Count	%	Count	%	Count	%	Count	%
All	39	74%	7	13%	7	13%	53	100%
Very Small (under 35,000 population)	4	50%	0	0%	4	50%	8	100%
Small (35,000-100,000 population)	7	70%	0	0%	3	30%	10	100%
Medium (100,000-700,000 population)	19	90%	2	10%	0	0%	21	100%
Large (over 700,000 population)	9	64%	5	36%	0	0%	14	100%

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Forty-six counties of the 53 responding counties have 56 juvenile hall facilities (number of facilities indicted in parentheses): Alameda (1), Butte (1), Contra Costa (1), El Dorado (2), Fresno (1), Glenn (1), Humboldt (2), Imperial (1), Inyo (1), Kern (1), Kings (1), Lake (1), Lassen (1), Los Angeles (3), Madera (1), Marin (1), Mendocino (1), Merced (1), Monterey (1), Napa (1), Nevada (1), Orange (2), Placer (1), Riverside (3), Sacramento (1), San Benito (1), San Bernardino (3), San Diego (2), San Francisco (1), San Joaquin (1), San Luis Obispo (1), San Mateo (1), Santa Barbara (1), Santa Clara (1), Santa Cruz (1), Shasta (1), Siskiyou (1), Solano (1), Sonoma (2), Stanislaus (1), Tehama (1), Trinity (1), Tulare (1), Ventura (1), Yolo (1) & Yuba (1).

Section II: Table 39

**Capacity of Juvenile Hall Facilities by County Size in CA County Probation Departments<sup>1</sup>**

Counties	CSA Rated Maximum Capacity (as of 6/2/2008)	Reported Operating Capacity <sup>2</sup>	Percent of Reported Compared to CSA Capacity
	Count	Count	%
All Counties	7949	8045	101%
Very Small (under 35,000 population)	78	74	95%
Small (35,000-100,000 population)	253	228	90%
Medium (100,000-700,000 population)	1758	1683	96%
Large (over 700,000 population)	5860	6060	103%

<sup>1</sup> Based on the 56 juvenile hall facilities in the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> Operating capacity differs from CSA capacity because it includes staffing issues, facility repairs, overcrowding and budget.

Section II: Table 40

**Juvenile Hall Commitments Received from Other Counties by County Size by CA County Probation Departments<sup>1</sup>**

Counties	Facilities with Commitments from Other Counties						Total Facilities	
	None from Out of County		1%-11% from Other Counties <sup>2</sup>		50%-58% from Other Counties <sup>2</sup>

Boot Camp	1	2%	0	0%	1	4%	0	0%

<sup>1</sup> Based on the 56 juvenile detention facilities in the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> Very small and small counties were combined due to the low number of facilities.

<sup>3</sup> Evidence-based therapies reported in this setting include cognitive behavioral therapy, aggression replacement therapy and multisystemic therapy.

Section II: Table 44

**Number of Criminogenic Needs<sup>1</sup> Targeted in Juvenile Hall Facilities by County Size in CA County Probation Departments<sup>2</sup>**

Counties	Number of facilities that address:						Total Facilities	
	Seven or more needs		Four to six needs		None to three needs			
	Count	%	Count	%	Count	%	Count	%
All	15	27%	24	43%	17	30%	56	100%
Very Small (under 35,000 population)	0	0%	2	50%	2	50%	4	100%
Small (35,000-100,000 population)	4	57%	3	43%	0	0%	7	100%
Medium (100,000-700,000 population)	8	35%	6	26%	9	39%	23	100%
Large (over 700,000 population)	3	14%	13	59%	6	27%	22	100%

<sup>1</sup> The number of criminogenic needs departments reported that were targeted (often on an as-needed basis) in their programs was coded from the survey responses. Needs counted include: family conflict / dysfunction, substance abuse / relapse prevention, self control / self management strategies, anger / aggression management, antisocial attitudes, prosocial modeling, association with antisocial peers, cognitive distortions and vocational training or work experience.

<sup>2</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

Section II: Table 45

**Camp / Ranch Facilities by County Size in CA County Probation Departments<sup>1</sup>**

Counties	Counties with 1 facility		Counties with more than 1 facility		Counties without a facility		Total Counties	
	Count	%	Count	%	Count	%	Count	%
All	12	23%	16	30%	25	47%	53	100%
Very Small (under 35,000 population)	2	25%	0	0%	6	75%	8	100%
Small (35,000-100,000 population)	1	10%	0	0%	9	90%	10	100%
Medium (100,000-700,000 population)	7	33%	4	19%	10	48%	21	100%
Large (over 700,000 population)	2	14%	12	86%	0	0%	14	100%

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008. Overall 68 ranch / camp facilities were reported by 29 counties. The number of facilities per county is indicted in parentheses: Alameda (1), Colusa (1), Contra Costa (1), El Dorado (1), Fresno (2), Kern (3), Kings (1), Los Angeles (18), Madera (1), Merced (1), Monterey (1), Orange (8), Riverside (3), Sacramento (2), San Bernardino (1), San Diego (3), San Francisco (2), San Joaquin (1), San Mateo (2), Santa Barbara (2), Santa Clara (2), Shasta (1), Solano (1), Sonoma (2), Trinity (1), Tulare (3), Ventura (2), & Yuba (1).

Section II: Table 46

**Camp / Ranch Capacity by County Size in CA County Probation Departments<sup>1</sup>**

Counties	CSA Rated Maximum Capacity (as of 6/2/2008)	Reported Operating Capacity <sup>2</sup>	Percent of Reported Compared to CSA Capacity
	Count	Count	%
All	5702	5129	90%

Very Small (under 35,000 population)	66	66	100%
Small (35,000-100,000 population)	60	40	67%
Medium (100,000-700,000 population)	672	501	75%
Large (over 700,000 population)	4904	4522	92%

<sup>1</sup> Based on the 68 camp / ranch facilities in the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> Operating capacity differs from CSA capacity because it includes staffing issues, facility repairs, overcrowding and budget.

Section II: Table 47

**Camp / Ranch Facility Commitments Received from Other Counties in CA County Probation Departments<sup>1</sup>**

Counties	Facilities with Commitments from Other Counties								Total Facilities	
	None from Out of County		1%-10% from Other Counties <sup>2</sup>		20%-30% from Other Counties <sup>2</sup>		50%-67% from Other Counties <sup>2</sup>			
	Count	%	Count	%	Count	%	Count	%	Count	%
All	43	63%	20	29%	2	3%	3	4%	68	100%
Very Small (under 35,000 population)	0	0%	0	0%	0	0%	2	100%	2	100%
Small (35,000-100,000 population)	0	0%	0	0%	1	100%	0	0%	1	100%
Medium (100,000-700,000 population)	11	73%	2	13%	1	7%	1	7%	15	100%
Large (over 700,000 population)	32	64%	18	36%	0	0%	0	0%	50	100%

<sup>1</sup> Based on the 68 facilities in the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> No counties reported between 10% to 20% or between 30% to 50% commitments of juveniles from other counties.

Section II: Table 48

**Average Duration of Commitment Time Served in Camp / Ranch Facilities by County Size in CA County Probation Departments<sup>1</sup>**

Counties	Average Duration of Commitment Time Served								Total	
	Up to 3 months		3 to 6 months		6 to 9 months		9 to 12 months			
	Count	%	Count	%	Count	%	Count	%	Count	%

Prostituted youth	0	0%	1	1%	0	0%	1	2%
Native Americans	0	0%	0	0%	1	2%	0	0%
Low risk	0	0%	1	1%	0	0%	0	0%

<sup>1</sup> Based on the 53 of 58 county probation departments that completed the California Commission on Juvenile Justice Survey, August 2008.

<sup>2</sup> Counties could indicate no special population or as many special populations as a specific program or facility serves.

Section II: Table 68

**Number of Youth in Custody in CA Department of Juvenile Justice (DJJ) Facilities<sup>1</sup>**

Facility	Youths		Total Youth per Facility
	Male	Female	
All DJJ Facilities	1643	84	1727

N. A. Chaderjian	235	0	235
O. H. Close	158	0	158
Preston	373	0	373
H. G. Stark	499	0	499
Southern	227	0	227
Ventura	151	84	235

<sup>1</sup> As of 28 October 2008. The Fall 2008 population projection for DJJ forecasts a male population of 1,480 in 2013 and a female population of 65. This is approximately 1,000 below DJJ's facility population in 2006. Most of this decrease can be attributed to realignment.

Section II: Table 69

**Service Elements Provided Youth in Custody at CA Department of Juvenile Justice (DJJ) Facilities<sup>1</sup>**

Service Elements
Gang Awareness
Victim Awareness
Anger Management
Foster Grandparents
Mentorship programs (e.g. Match-2)
IMPACT (offender change program)
AmeriCorps
Young Boys Program
Alcoholics Anonymous
Narcotics Anonymous
Religious Programs
Life Skills
Employability Skills
Pre-Parole

<sup>1</sup> Because DJJ programs are being substantially revised and expanded, a comprehensive survey was not undertaken. The above list is representative of the types of programs currently being offered at DJJ facilities.

Note: In addition to general education and vocational education, DJJ has historically provided residential treatment programs for mentally ill youth, sex offenders, and youth with substance abuse problems. There are currently residential mental health programs at three facilities and sex offender and substance abuse programs at four facilities. All of these programs are being modified in response to remedial plans adopted as part of a consent decree.

Section II: Table 70

**Evidence-Based Programs & Principles in Use at CA Department of Juvenile Justice (DJJ) Facilities**

Rationale: DJJ has identified, and is developing (and in some cases providing), a variety of evidence-based programs tied to the agency’s new risk and needs assessment instrument & case management process. In addition to these programs, hundreds of staff have been trained in foundational skills such as motivational interviewing, group facilitation, cognitive behavior principles, safe crisis management, and conflict resolution and mediation.

Evidence-Based Program	Description
Strategies for Self Improvement and Change	Cognitive behavioral treatment program for youth over 18 who have been assessed with major needs in the substance abuse domain.
Pathways to Self Discovery and Change	Addresses the needs of youth with substance abuse issues but it is designed for youth under the age of 18.
Counterpoint	Counterpoint is a cognitive behavioral program for youth with major needs relating to anti-social attitudes and negative peer influences.
Aggression Replacement Training (ART)	A nationally recognized program focusing on anger management and development of social skills for youth who have difficulties controlling their anger. ART was developed for adolescents up to the age of 18.
Controlling Anger and Learning to Manage It (CALM)	Similar to ART, this program addresses anger and emotion management skills for youth 18 and over.
Girls Moving On	A gender-responsive program focusing on relationships, emotions, and personal histories (including trauma) of young women.
Transition Skills	This program provides training in basic skills that help with transition to the community, including family and intimate relationships, emotion management, parenting, employment, housing, finances, community living, and leisure skills.

Section II: Table 71

**Parole Services in Use & Needed in the CA Department of Juvenile Justice (DJJ) System<sup>1</sup>**

Background: DJJ parole includes regular supervision & related services, intensive supervision & related services, specialized caseloads, and a reduced level of supervision called “case management supervision”. Some parolees are also placed on electronic monitoring as part of a more highly structured supervision. A wide variety of services – including placement options and treatment programs – are available through some / all parole offices. Below is a list of parole services that are available or need to be expanded.

Parole Services That Need to Be Provided or Expanded
Re-entry programs
Community service programs
* Work programs
Inpatient dual diagnosis services
Outpatient dual diagnosis services
* Wraparound services
Aftercare programs
Residential substance abuse treatment
Outpatient substance abuse treatment
Victim services
Day reporting centers
Evening reporting centers
Employability Skills
Pre-Parole
* Gang reduction / prevention programs

\* Based on the survey, the highest priority needs for the DJJ parole offices.

## CJJ Survey: Section 2

### **RISK & NEEDS ASSESSMENTS**

Contact person: \_\_\_\_\_  
Phone: \_\_\_\_\_ County: \_\_\_\_\_  
Email: \_\_\_\_\_

Four purposes for assessments are defined for this survey: two are for intervention / treatment purposes and two are for detention-related purposes.

#### **ASSESSMENT FOR INTERVENTION / TREATMENT PURPOSES**

1<sup>st</sup> purpose is to assess **RISK OF RE-OFFENDING**

Judgments about risk of re-offending form the basis of important decisions regarding the selection of the appropriate level of juvenile justice intervention or sanction. Research shows that matching the juvenile's risk of re-offending to the intensity of the intervention or sanction provided (higher risk = more intense response; lower risk = very low intensity response) is critical to achieving favorable outcomes. A validated "actuarial-type" risk assessment tool identifies youth with a low, medium or high risk of re-offending based on empirically-weighted risk factors.

2<sup>nd</sup> purpose is to assess **TREATMENT-RELATED NEEDS**

Treatment-related assessments can be broken down into two parts:

1. Traditional assessments used to identify physical health, mental health, education and other specific treatment needs, and
2. Assessments of criminogenic risk / need factors based on the research literature.

Assessment tools designed to identify criminogenic risk / needs will, among other things, measure a youth's history of antisocial behavior; antisocial personality patterns; antisocial attitudes, values and beliefs; and association with antisocial peers.

It is this second type of treatment-related assessment that is the subject of this part of the survey.

#### **ASSESSMENT FOR DETENTION PURPOSES**

3<sup>rd</sup> purpose is to assess risks related to the **DECISION TO DETAIN OR RELEASE**

The decision whether to hold a juvenile in a detention facility or release to a parent or guardian should be based on legal requirements as well as judgments about risk to self and others.

4<sup>th</sup> purpose is to assess **CUSTODY CLASSIFICATION**

This assessment provides the basis for making housing decisions based on the level of threat that youth in secure facilities pose to themselves, to others in custody or to the facility staff.

**THERE ARE FOUR PARTS TO THIS SECTION OF THE SURVEY, ONE FOR EACH ASSESSMENT PURPOSE**

## PURPOSE 1: ASSESSMENT FOR INTERVENTION / TREATMENT PURPOSES

### RISK OF RE-OFFENDING

---

Based on our interpretation of the recent JJDP and CPOC surveys, your department reported using this tool to assess risk of re-offending (blank if none reported):

DROP IN ASSESSMENT PREVIOUSLY REPORTED

RN1 **Are you currently using this assessment tool for this purpose?** check if YES  
LEAVE BLANK IF NO  NOT YET  
BUT FUNDED NEXT FISCAL YEAR

If not, please write in the name of the tool currently used or leave blank to indicate that no tool is used for this purpose.

If FUNDED NEXT FISCAL YEAR, write name of new tool.

RN2 **If an assessment tool is being used, how is the risk of re-offending scored?**

By standard range for low, medium, high risk

By other standard cut-offs

Provides raw numeric score without standard cut-offs

Explain:

RN3 **If JCPSS could accept the data, could you add level of risk to the data already submitted?** check if YES  
LEAVE BLANK IF NO  WITH DIFFICULTY

If NO or WITH DIFFICULTY, what are the barriers to reporting the results (e.g. categorical results such as high, medium, low risk) of the risk assessment to JCPSS:

**IF YOU USE A RISK-TO-REOFFEND ASSESSMENT TOOL, CONTINUE ON THE NEXT PAGE;  
IF NOT, GO TO PAGE 4**

CJJ Survey: Section 2 (continued)

ANSWER THESE QUESTIONS ONLY IF YOU USE A RISK-TO-REOFFEND ASSESSMENT TOOL

RN4	<b>Has this tool been validated on your own juvenile probation population or a juvenile population elsewhere that is similar to that in your county?</b>	check if YES LEAVE BLANK IF NO	UNKNOWN
	It has been validated	<input type="checkbox"/>	<input type="checkbox"/>
	It has been validated in the last 5 years	<input type="checkbox"/>	<input type="checkbox"/>

RN5	<b>When do you administer this assessment?</b>	Check all that apply:
	Prior to referral (e.g. by law enforcement considering diversion)	<input type="checkbox"/>
	upon referral to probation	<input type="checkbox"/>
	upon arrival at a detention center	<input type="checkbox"/>
	when a petition is to be filed in court	<input type="checkbox"/>
	upon adjudication	<input type="checkbox"/>
	at intake for one or more programs	<input type="checkbox"/>
	at specified intervals to track progress	<input type="checkbox"/>
	to reassess juvenile at termination	<input type="checkbox"/>

If OTHER, please describe here:

RN6	<b>For what purposes is this assessment used?</b>	Check all that apply:
	for decision to file, close or take some other action	<input type="checkbox"/>
	for diversion decision	<input type="checkbox"/>
	to determine level of supervision	<input type="checkbox"/>
	to determine referral to DA's office for petition	<input type="checkbox"/>
	to determine placement in a specific program	<input type="checkbox"/>
	for case management purposes	<input type="checkbox"/>
	To assist in dispositional recommendations	<input type="checkbox"/>
	to determine treatment options within a program	<input type="checkbox"/>

If OTHER, please describe here:

CONTINUE TO NEXT PAGE

CJJ Survey: Section 2 (continued)

## PURPOSE 2: ASSESSMENT FOR INTERVENTION / TREATMENT PURPOSES

### TREATMENT-RELATED NEEDS—CRIMINOGENIC RISK / NEED FACTORS

Based on our interpretation of the recent JJDP and CPOC surveys, your department reported using this tool to assess criminogenic risk / need factors (blank if none reported):

**DROP IN ASSESSMENT PREVIOUSLY REPORTED**  
[restrict to criminogenic needs assessment]

- RN7 **Are you currently using this assessment tool for this purpose?**  check if YES  
LEAVE BLANK IF NO  NOT YET  
BUT FUNDED NEXT FISCAL YEAR

If not, please write in the name of the tool currently used or leave blank to indicate that no tool is used for this purpose.

If FUNDED NEXT FISCAL YEAR, write name of new tool.

- RN8 **If an assessment tool is used, how is the overall level of need for treatment determined?**

By standard range for low, medium, high need

By other standard cut-offs

By raw numeric score without standard cut-offs

Explain:

- RN9 **If JCPSS could accept the data, could you add level of need to the data already submitted?**  check if YES  
LEAVE BLANK IF NO  WITH DIFFICULTY

If NO or WITH DIFFICULTY, what are the barriers to reporting the results (e.g. categories such as high, medium, low) of the needs assessment to JCPSS?

**IF YOU USE A TREATMENT NEEDS ASSESSMENT TOOL, CONTINUE ON THE NEXT PAGE;  
IF NOT, GO TO PAGE 6**

CJJ Survey: Section 2 (continued)

ANSWER THESE QUESTIONS ONLY IF YOU USE A TREATMENT NEEDS ASSESSMENT TOOL

RN10	Has this tool been validated on your own juvenile probation population or a juvenile population elsewhere that is similar to that in your county?	check if YES	UNKNOWN
		LEAVE BLANK IF NO	
	It has been validated	<input type="checkbox"/>	<input type="checkbox"/>
	It has been validated in the last 5 years	<input type="checkbox"/>	<input type="checkbox"/>

RN11 When do you administer this assessment?

Check all that apply:

- upon referral to probation
- upon arrival at a detention center
- when a petition is to be filed in court
- upon adjudication
- at intake for one or more programs
- at specified intervals to track progress
- to reassess juvenile at termination

If OTHER, please describe here:

RN12 For what purposes is this assessment used?

Check all that apply:

- to determine type of services required
- to determine placement in a specific program
- for case management purposes
- to determine treatment options within a program

If OTHER, please describe here:

CONTINUE TO NEXT PAGE

### PURPOSE 3: ASSESSMENT FOR DETENTION PURPOSES

#### DETENTION / RELEASE DECISION

---

Based on our interpretation of the recent JJDP and CPOC surveys, your department reported using this tool to inform the decision to detain or release youth brought to a detention facility (blank if none reported):

**DROP IN ASSESSMENT PREVIOUSLY REPORTED**

RN13 **Are you currently using this assessment tool for this purpose?**

check if YES  
LEAVE BLANK IF NO

NOT YET  
BUT FUNDED NEXT FISCAL YEAR

If not, please write in the name of the tool currently used or leave blank to indicate that no tool is used for this purpose.

If FUNDED NEXT FISCAL YEAR, write name of new tool.

#### IF YOU USE A DETENTION / RELEASE TOOL, PLEASE ANSWER THE FOLLOWING QUESTIONS

---

RN14 **Has this tool been validated on your own juvenile probation population or a juvenile population elsewhere that is similar to that in your county?**

check if YES  
LEAVE BLANK IF NO

UNKNOWN

It has been validated

It has been validated in the last 5 years

RN15 **When do you administer this assessment?**

Check all that apply:

upon arrival at a detention center

prior to first appearance

If OTHER, please describe here:

CONTINUE TO NEXT PAGE

# PURPOSE 4: ASSESSMENT FOR DETENTION PURPOSES

## CUSTODY CLASSIFICATION

Based on our interpretation of the recent JJDP and CPOC surveys, your department reported using this tool for custody classification of youth in a secure facility (blank if none reported):

DROP IN ASSESSMENT PREVIOUSLY REPORTED

	check if YES LEAVE BLANK IF NO	NOT YET BUT FUNDED NEXT FISCAL YEAR
RN16 <b>Are you currently using this assessment tool for this purpose?</b>	<input type="checkbox"/>	<input type="checkbox"/>

If not, please write in the name of the tool currently used or leave blank to indicate that no tool is used for this purpose.

If FUNDED NEXT FISCAL YEAR, write name of new tool.

	check if YES
RN17 <b>Does your detention facility have living units with different security levels?</b>	<input type="checkbox"/>

## IF YOU USE A CUSTODY CLASSIFICATION TOOL, PLEASE ANSWER THE FOLLOWING QUESTIONS

	<b>Has this tool been validated on your own juvenile probation population or a juvenile population elsewhere that is similar to that in your county?</b>	check if YES LEAVE BLANK IF NO	UNKNOWN
	It has been validated	<input type="checkbox"/>	<input type="checkbox"/>
	It has been validated in the last 5 years	<input type="checkbox"/>	<input type="checkbox"/>

	<b>When do you administer this assessment?</b>	Check all that apply:
	upon admission to a detention center	<input type="checkbox"/>
	upon transfer to another facility	<input type="checkbox"/>
	upon cause (fight, contraband, etc.)	<input type="checkbox"/>
	at specified intervals	<input type="checkbox"/>

If OTHER, please describe here:

CJJ Survey: Section 3

# NON COURT-ORDERED EARLY INTERVENTION

Contact person: \_\_\_\_\_

Phone: \_\_\_\_\_ County: \_\_\_\_\_

Email: \_\_\_\_\_

(including probation diversion, informal probation under 654.1 WIC, teen court, etc)

Please complete this part of the survey for each early intervention program. We have filled in what your department reported on the 2006 JJDP Survey. Confirm, correct or update the information, or note discontinued programs.

## Program 1

Update or correct as needed:

<b>FIRST PROGRAM NAME</b>	EI1	
---------------------------	-----	--

If you cannot easily update the information below, check here:  EI2 If this program no longer exists, check here:  EI3

If information is easily available, update or correct below as needed:

<b>XXX</b>	Average number of days in program	EI4	
<b>WEEKLY</b>	Approximate frequency of DPO contact with youth (e.g. face-to-face, phone, overseeing restitution, fines and community service)	EI5	
<b>XX</b>	Average overall caseload size for DPOs who work with youth in this program	EI6	

Characteristics of youth in program (check all that apply)

<p>EI7 The <b>risk of re-offense</b> for most youth in this program is:</p> <p><input type="checkbox"/> High</p> <p><input type="checkbox"/> Moderate</p> <p><input type="checkbox"/> Low</p> <p><input type="checkbox"/> Unknown—risk to re-offend not formally assessed</p> <p><input type="checkbox"/> Unknown—assessment by others</p> <p><input type="checkbox"/> Not applicable—program given regardless of level of risk</p>	<p>EI8 The <b>need for services</b> for most youth in this program is:</p> <p><input type="checkbox"/> High</p> <p><input type="checkbox"/> Moderate</p> <p><input type="checkbox"/> Low</p> <p><input type="checkbox"/> Unknown—need for services not formally assessed</p> <p><input type="checkbox"/> Unknown—assessment by others</p> <p><input type="checkbox"/> Not applicable—program given regardless of level of need</p>
---	--

## Program 2

Update or correct as needed:

<b>NEXT PROGRAM NAME</b>	EI1	
--------------------------	-----	--

If you cannot easily update the information below, check here:  EI2 If this program no longer exists, check here:  EI3

If information is easily available, update or correct below as needed:

<b>XXX</b>	Average number of days in program	EI4	
<b>WEEKLY</b>	Approximate frequency of DPO contact with youth (e.g. face-to-face, phone, overseeing restitution, fines and community service)	EI5	
<b>XX</b>	Average overall caseload size for DPOs who work with youth in this program	EI6	

Characteristics of youth in program (check all that apply)

<p>EI7 The <b>risk of re-offense</b> for most youth in this program is:</p> <p><input type="checkbox"/> High</p> <p><input type="checkbox"/> Moderate</p> <p><input type="checkbox"/> Low</p> <p><input type="checkbox"/> Unknown—risk to re-offend not formally assessed</p> <p><input type="checkbox"/> Unknown—assessment by others</p> <p><input type="checkbox"/> Not applicable—program given regardless of level of risk</p>	<p>EI8 The <b>need for services</b> for most youth in this program is:</p> <p><input type="checkbox"/> High</p> <p><input type="checkbox"/> Moderate</p> <p><input type="checkbox"/> Low</p> <p><input type="checkbox"/> Unknown—need for services not formally assessed</p> <p><input type="checkbox"/> Unknown—assessment by others</p> <p><input type="checkbox"/> Not applicable—program given regardless of level of need</p>
---	--

CJJ Survey: Section 4

**COURT-ORDERED  
COMMUNITY SUPERVISION**

Contact person: \_\_\_\_\_  
 Phone: \_\_\_\_\_ County: \_\_\_\_\_  
 Email: \_\_\_\_\_

(including WIC 241.1, 601, 602, 654.2, 725a & 790)

Please complete this part of the survey for each court-ordered community supervision program. We have filled in what your department reported on the 2006 JJDP Survey. Confirm, correct or update the information, or note discontinued programs.

**Program 1**

Update or correct as needed:

<b>FIRST PROGRAM NAME</b>	IM1	
---------------------------	-----	--

If you cannot easily update the information below, check here:  IM2 If this program no longer exists, check here:  IM3

If information is easily available, update or correct below as needed:

**Recidivism records**

	NONE (OR CLOSE TO NONE)	ABOUT 25%	ABOUT 50%	ABOUT 75%	ALL (OR CLOSE TO ALL)
DR2 For what percent of the youth adjudicated in your county do you track recidivism <u>to the end of the program or ordered term</u> ?	<input type="checkbox"/>				
For what percent of the youth adjudicated in your county do you track recidivism <u>one year or more after the end of the program or ordered term</u> ?	<input type="checkbox"/>				

How do you define recidivism?

	RETURN TO CUSTODY	NEW ARREST	NEW CONVICTION	VARIES OR OTHER (DESCRIBE)
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input style="width: 150px; height: 20px;" type="text"/>

**JCPSS data**

DR3 How does your department use the data provided to the state Juvenile Court and Probation Statistical System (JCPSS)?

	Use to prepare administrative reports	Use to track outcomes for selected programs or interventions	Use to track outcomes for all adjudicated youth	Do not have a way to use these data locally	Other	Check all that apply
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input style="width: 150px; height: 20px;" type="text"/>	<input type="checkbox"/>

How would your department like to use the data provided to JCPSS?

	Use to prepare administrative reports	Use to track outcomes for selected programs or interventions	Use to track outcomes for all adjudicated youth	Not a useful source of data	Other	Check all that apply
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input style="width: 150px; height: 20px;" type="text"/>	<input type="checkbox"/>

What barriers limit the ways your department can use the JCPSS data?

# REALIGNMENT OF NON-707(b) YOUTH

Contact person: \_\_\_\_\_  
 Phone: \_\_\_\_\_ County: \_\_\_\_\_  
 Email: \_\_\_\_\_

What do you expect will be the short and long-term impacts of the realignment initiative on your county?

## BACKGROUND

RE1	PRIOR TO THE CHANGE IN THE LAW, HOW OFTEN WERE NON-707(b) YOUTH COMMITTED TO DJJ FROM YOUR COUNTY IN THE LAST 5 YEARS?	FREQUENTLY	SOMETIMES	RARELY	NEVER
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

If some non-707(b) youth were previously committed to DJJ from your county, please answer the following two questions.

RE2	WHAT LOCAL PROGRAMS / SERVICES HAD SUCH YOUTH TYPICALLY RECEIVED PRIOR TO DJJ COMMITMENT?	NEARLY ALWAYS	OFTEN	NEVER	NOT APPLICABLE
	Diversion and/or informal probation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Probation without confinement (home on probation)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Confinement in juvenile hall	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Confinement in a ranch or camp	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Out of home placement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Placement in alternative school	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Outpatient mental health services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Inpatient mental health services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Outpatient substance abuse services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Inpatient substance abuse services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Other treatment services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

RE3	WHAT WAS THE TYPICAL OFFENSE HISTORY OF NON-707(b) YOUTH FORMERLY COMMITTED TO DJJ?	NEARLY ALWAYS	OFTEN	NEVER	NOT APPLICABLE
	Multiple prior adjudications	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	One or more prior 707(b) adjudication	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## ACTUAL OR ANTICIPATED EFFECTS OF REALIGNMENT

RE4	PLEASE CHECK THE APPROPRIATE BOX(S) FOR EACH OF THE FOLLOWING POSSIBLE EFFECTS OF REALIGNMENT IN YOUR COUNTY								
		SHORT TERM	LONG TERM	NOT AN ISSUE		SHORT TERM	LONG TERM	NOT AN ISSUE	
	Insufficient resources to supervise	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Lack of confinement options for youth > 18	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Lack of appropriate local treatment options	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Early termination of parole for youth > 18	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Increased use of placement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Increased use of custody (in JH or camp)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	More direct files	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	More fitness hearings	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Changes in DA charging and/or bargaining practices	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Lobbying to undo part, or all, of the realignment initiative	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
					Failure of state to continue funding realignment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

RE5 WHAT OTHER SHORT OR LONG-TERM IMPACTS DO YOU EXPECT FROM REALIGNMENT?
